Nr. 1548 / 06.03.2023

### RECOMMENDATION

Based on the collaboration protocol between the University of Petroșani and National University of Water and Environmental Engineering, Ukraine, the annual publication of a multi-author monograph has become traditional. The monograph developed in 2023 is called „Key trends of integrated innovation-driven scientific and technological development of mining regions”. Based on reviews by Prof.Dr. I. Stolpovskikh, Technological machinery and transport department Satbayev University - Kazakhstan, Khavalbolot Kelgenbai - Head of Department of Mineral processing and engineering of School of Geology and Mining at Mongolian University of Science and Technology, Mongolia and Mihaela Toderas, Ph.D.Habil.Eng., Prof., Faculty of Mines, University of Petrosani, Romania, Board of Directors of the University of Petrosani recommends publishing the monograph at the Publishing House Universitas of the University of Petroșani.

RECTOR,

Prof.univ.dr.ing. Sorin Mihai RADU
