HYDROTECHNICAL RECLAMATION

Mendus S. P.	Measures of Improving Performance for Rice Drainage Systems	3
Kuzmych L. V., Kuzmych A. A.	Modern Requirements of Energy Saving Policy for Mechanical Measurement of Water and Heat	9
Klimov S. V., Nemolovska N. A., Andriuk I. M.	Analysis of Modern Technologies for Ground Dam Reconstruction	14
Herasimov Y. H., Herasymov H. H.	Reliability Assessment of Pressure Stabilizer in the Pipeline System	25
Kuzmych L. V., Karashchuk M. M., Kuzmych A. A.	Current State of Reclaimed Fund in Manevychi District, Volyn Region	34
Olkhovyk O. I., Miskov M. O.	Use of Micro Hydro Turbines in Irrigation Channels to Resolve Issues of Local Energy Supply	41
Kuzmych L. V., Zaiats M. V., Kuzmych A. A., Perekhodko I. V.	Definition of Pressures on Transboundary Surface Water Resources of Rivne Region in Modern Conditions	47
Turcheniuk V. O.	Filtration Processes in Rice Irrigation System and Their Impact on the Ecological Reclamation of Soil	56

HYDRAULIC ENGINEERING

Khlapuk M. M., Yasinska L. R., Feshchenko L. V.	Influence of the Stream Flow Hydraulic Parameters on the Bed and Floodplain Discharge Capacity on the Foothill Areas of the Rivers	63
---	--	----

Shkvyr I. M.	Modeling of Water Erosion on Soil	72
Nikolaichuk O. M., Meddur A. S. E.	Maximum Allowable Design Parameters of Hydro-Regulator with Long Hydraulic Connection Validation	82

APPLIED MATHEMATICS

Bomba A. Y., Boichura M. V., Saviuk Y. V.	Numerical Methods of Quasiconformal Mappings for Modeling the Slow Traffic of Fluid In the Reservoir	92
---	--	----

EXPLOITATION OF MINERAL DEPOSITS

Malanchuk Z. R., Zaiets V. V., Solvar L. M., Romanchuk S. S.	Underground Gasification of Coal Deposits ...	107
Malanchuk Z. R., Zaiets V. V., Solvar L. M., Romanchuk S. S.	Methods of Coal Converting Into Gaseous Energy Source In the Field of Occurrence	115
Khrystiuk A. O., Malanchuk Y. Z.	Field Studies Results of Automated TV Complex of Hydraulic Borehole Mining on Alluvial Deposits	125
Malanchuk Z. R., Vasylchuk O. Y., Okseniuk R. R.	Current Trends of Technogenic Phosphogyp- sum Fields Use and Recycling	133
Lutsenko S. A.	Study of Interrelation Between Operation Area Width and Mining Operation Line Length	140
Symonenko V. I., Pavlychenko A. V., Hrytsenko L. S., Savenkov S. S.	Technological Aspects of Ecological Finalization of Nonmetallic Career During their Liquidation and Conservation	148

WATER SUPPLY AND WASTEWATER DISPOSAL

Klymiuk Y. Y.	Mathematical Modelling of the Process of Water Purification From Impurities in Multilayer Filter With Porous Load 159
Odud L. M.	Use of Suspended Sediment Layer For Water Softening in Expanded Polysterene Filters 175
Nazarov S. M., Solodkyi O. D.	Optimization of Power Parameters of Water-Washing System of Mesh Jet-Reaction Filters By Large Productivity 183
Fylypchuk V. L., Bondar O. I., Kuryliuk M. S., Ayaya Aniyefiok, Kryvoshei P. P., Kuryliuk O. M., Pochtar O. V.	Cleaning Water on the Filtration-Regeneration Bioplato 193
Kvartenko O. M.	Operation of Station for Deironing Weak Acid Underground Waters With Low Alkali Reserve 205
Orlov V. O., Martynov S. Y., Kunyskyi S. O.	Mathematic Modeling of Underground Water Deironing Process for Drinking Water Supply 215

LAND MANAGEMENT AND SURVEYING

Bachyshyn B. D.	Determination of Parameters of Crane Tracks by Reflectorless Electronic Total Station 223
Ostapchuk S. M., Martyniuk P. Y.	Cartographic Modeling of the Main Agrochemical Properties of Soils Volyn Region 231
